KEY TAKEAWAYS

1**RIG ABOVE THE WORKER**

Climb and set the OX Block hand line and OX Hook first.

2**SECURE THE WORKER**

Rope under the arms, clipped back with the hook's gate closed.

3**THREE WRAPS, THEN TENSION**

Make three wraps through the OX Block and get them tight.

4**LOAD BEFORE YOU CUT**

Confirm the worker's weight is on the system before cutting.

5**TWO HANDS, SLOW DESCENT**

Keep both hands on the rope and lower them gently.
